Cool Aid will soon be applying to the City of Victoria for new zoning to allow for two floors of supportive housing for residents 50+ years of age with low-to-moderate support needs, and one floor of affordable rental housing for residents 50+ years of age.

Representatives from Cool Aid and BC Housing will be in attendance to answer your questions and listen to your comments and ideas. In the coming weeks, there will also be additional opportunities to share your ideas throughout the official rezoning process.
