

Dear Fairfield Neighborhood Association

RE: Tree Removal Notice

This notice is to inform you about the upcoming tree removal in your neighborhood.

The address, species and condition of the tree are as follows.

441 Stannard Ave, Vine Maple 29cm DBH, Severe canopy decline.

The tree will be removed between April 24th 2018 and June 1st 2018.

Caring for Our Urban Forest

Planning for a healthy urban forest is very important to the City of Victoria. We manage 33,000 City-owned trees, most of which are on 300 kilometers of boulevards and in our 137 parks and open spaces.

In addition to being beautiful, these trees help improve air quality, absorb water during storms and reduce the amount of carbon dioxide in our environment. They also help shade our streets and buildings, helping to cool our city.

Guided by the Urban Forest Master Plan, our arboriculture team develops plans that involve identifying areas for planting new trees to expand the inventory, as well as identifying existing trees that are at the end of their healthy life. Removing unhealthy trees reduces safety risks and opens up space to plant new, young trees which will grow into our future urban forest.

The City of Victoria Urban Tree Inventory completed in 2012 found that 64% of public trees are in good or excellent condition and 30% are in fair condition and 6% are in poor condition.

This fall, the City identified trees as either dead or in significant decline and require removal. Each tree was identified through our inventory, and was inspected by our Certified Arborists, using an internationally recognized assessment process.

Removal of any tree is always a last resort. Pruning and other options to mitigate the risks of the unhealthy tree are always considered first. Our practice with each removal is for a new tree to be planted, with consideration for the species that will have the best chance for success given a particular location.

We thank you for your understanding as we work to improve the health of our urban trees. Residents that live close to a tree on the removal list will receive a letter and tree removal notices will be posted to each tree.

Please don't hesitate to contact the Parks office at 250.361.0600 or parks@victoria.ca if you have any questions.
