Re: Heritage Inventory

Dear :

At the regular meeting of the Board of the Fairfield Gonzales Community Association (formerly the Fairfield Community Association) moved to indicate to you that the FGCA values our natural and built environment. We encourage the City of Victoria to include our important green spaces, view corridors and other non-building remnants of our past into the Fairfield Inventory Update.

The feeling of the meeting was that there were many other places and amenities that are not normally included in an inventory restricted to buildings, and that listing these in the Fairfield Inventory Update would be the first step in a process to protect these amenities.

We will be happy to work with the City in this endeavor.

We encourage the City to consider this for all neighbourhoods in Victoria.

Regards

Blair Humphrey, Vice President
for Wayne Hollohan, President
