

Fairfield Gonzales Community Association

Land Use Committee

Report on meeting: September 14th, 2017

Re: 1150 McClure

The plans were presented by Duane Ensing, representing the applicant.

There was only one couple who attended, simply to learn more about the application. Once it was presented, they stated they had no objections to the proposed re zoning.

The committee members had no objections nor did they raise any concerns, except one.

Several members of the CALUC expressed surprise and great concern that a project as simple and straight forward as this one should have to undergo the same process and time delays as more extensive proposals. It seems quite "...unfair" stated one member.

Members of the CALUC present:

Andrew Brownwright, Vice Chair, Megan Parry, Robin Jones, David Barlow, David Wales, Don Monsour (Chair of the FGCA Board), and David Biltek, Chair

Guest: Kevin Warren
