CONSTRUCTION NOTICE

**Maud Street from St. Charles Street to Belmont Avenue
Transportation Project
June – August 2019**

Dear Sir/Madam:

As part of the 2019 Local Streets Rehabilitation Program, the City of Victoria will be completing the improvements mentioned below. Construction is expected to start the week of June 17, 2019 with completion expected in August, 2019.

The scope of work includes the following:

- **Accessibility Improvements:** New sidewalk and wheel chair ramps will be constructed which will improve pedestrian access.
- **Storm Water Control:** In order to improve storm water control, the existing asphalt curb on the north side of Maud Street will be removed and replaced with full height concrete curb and gutter. Concrete curb and gutter will also be re-constructed along the south side of Maud Street. A catch basin at St. Charles Street will be upgraded and a new catch basin will be installed near Belmont Avenue.
- **Roads Improvements:** Re-constructing the road and asphalt paving will renew the City's investment to roads infrastructure.

The City of Victoria will work to minimize inconveniences during construction. Local access will be maintained and some parking restrictions will be required. The construction area will be clearly marked with signs.

If you have any questions, comments, or concerns regarding this project please contact me at 250-883-0513 or cjalonen@victoria.ca.

Regards,

Christopher Jalonon, AScT
